REPORT OF SUPERINTENDENT

To the Citizens of Jefferson:

Having been with you for only a part of the fiscal year, the report which I am privileged to submit may not be as inclusive as you would wish, but I trust that it will give you some of the information desired.

In looking over the financial report you will note that there has been expended for the support of schools, including teachers' salaries, tuition, fuel, conveyance, board of pupils, text books and supplies, the sum of \$7,759 43, of which the State paid \$2,054 72 or 26.5 per cent. For repairs, toilets, and flags there was expended \$406 55, which was approximately \$100 less than the appropriation. Our unexpended balance of over \$1,000 comes largely from unused money appropriated for tuition.

I would call your attention particularly to the last page of the report of your committee where a school budget is outlined for the ensuing year. The needs of the schools have been carefully considered, and these recommendations may be considered as conservative. Even though another teacher will in all probability be necessary in the Village School, your committee is asking for \$426 00 less than was appropriated last year, with the understanding that unexpended balance now existing can be drawn upon for the general school fund.

Total enrollment for the present school year is 141, which is a few less than were enrolled last year. Enrollment by grades is approximately as follows: eighth grade 11, seventh grade 17, sixth grade 19, fifth grade 17, fourth grade 25, third grade 19, second grade 15, first grade 18, first year high school 12. The average attendance, while no worse than in former years, is altogether too low.

There is now being paid for the education of each child in Jefferson about \$42 per year by the Town and \$15 by the State. We may, in other words, consider that each child is being loaned in school privileges the equivalent of nearly two dollars per week, with the expectation on the part of the Town and the State that he will return this loan with interest at a later date.

The State recognizes the importance of regular attendance if the greatest possible returns are to be secured on the investment, so aggregate attendance is an important factor in determining the amount of our State Fund. Irregular attendance not only retards the work of the school and adds to the burden of the teacher, but it tremendously handicaps the pupil who thus indulges.

In general, however, the schools of Jefferson are making satisfactory progress. The greater part of our teachers have had some professional training; three are Normal graduates. The effects of Normal school training and continued professional study are readily apparent. I believe that no restriction need be placed upon the statement that all of our teachers are doing their level best to mould the character and stimulate the mentality of the youth under their care. Thus far in the present school year we have been very fortunate in retaining all of our teachers.

Shortly before school opened in the fall, a census of prospective high school students indicated so small an enrollment that it seemed inadvisable to offer two years work, which would have necessitated the use of another building. As there was no eighth grade in the Village school, and we found that a teacher could conveniently take care of the seventh grade work in the same room with the first year of high school, we obtained the consent of the State Department to this combination. The arrangement has worked out quite satisfactorily, even though we have a larger enrollment than was anticipated. Next year there will be an eighth grade as well as a much larger seventh grade to accomodate, so the use of another building may be necessary.

The Boynton School House is now in good repair, and with the recent addition of a sanitary toilet, which

is nearly finished, the necessary work along this line has come to an end. While the enrollment at the Boynton School is small, there is indication of a gradual increase, and, considering the distance from other schools, it would seem advisable to continue school in that district.

Repair work for the coming year will consist largely of painting, at least two schools being in need of a new coat.

I would like to say that coming as a stranger into this town I was very much pleased with the moral tone of the schools. It indicates that the young folks are getting something worth while, not only in school, but at home. Now that Maine is awakening to the possibilities within her borders, may we not hope that a large percentage of these young people will come to a realization of the opportunities about them and remain here to develop this town, through scientific agriculture, into a section of which we may justly feel proud.

Respectfully submitted,

R. S. GREENWOOD,
Superintendent.

WARRANT FOR TOWN MEETING

To C. O. Glidden, a constable of the town of Jefferson, County of Lincoln, State of Maine.

Greeting:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of the town of Jefferson, qualified by law to vote in town affairs, to assemble at the Town House in said town on Monday, the eighth day of March, A.
